APPROVAL OF AGENDA

COMMENTS FROM THE PUBLIC (5 min. max)

WHAT IS CIVILITY?: Civility is caring about one's identity, needs and beliefs without degrading someone else's in the process. Civility is more than merely being polite. Civility requires staying "present" even with those persons with whom we have deep-rooted and perhaps strong disagreements. It is about constantly being open to hear, learn, teach and change. It seeks common ground as a beginning point for dialogue. It is patience, grace, and strength of character. Civility is practiced in our City Hall. PUBLIC COMMENT: If a member of the public wishes to comment upon ANY subject matter, including quasi-judicial matters, please submit a Request to Speak form. These forms are available in the back of the Commission Chambers, and should be given to the City Clerk prior to introduction of the item number you would like to address.

QUASI-JUDICIAL HEARINGS: Some of the matters on the Agenda may be "quasi-judicial" in nature. City Commissioners will disclose all ex-parte communications, and may be subject to voir dire by any interested party regarding those communications. All witnesses testifying will be "sworn" prior to their testimony. However, the public is permitted to comment without being sworn. Unsworn testimony will be given appropriate weight and credibility by the City Commission.

CONSENT CALENDAR: Those matters included under the Consent Calendar are selfexplanatory, non-controversial, and are not expected to require review or discussion. All items will be enacted by one motion. If discussion on an item is desired by any City Commissioner that item may be removed by a City Commissioner from the Consent Calendar and considered separately. If an item is quasi-judicial it may be removed by a Commissioner or any member of the public from the Consent Calendar and considered separately.

6:01 PM COMMENTS BY CITY COMMISSIONERS

Commissioner McDonald was pleased at the Florida league of Cities and their agenda. He also congratulated Commissioner Krauskopf on the presentation on the Algae crisis. He also said the City has had some issues regarding the approval processes with building approvals and the coordination with fire inspections.

City Manager Nicoletti said the City staff have been diligently been working on the matter.

Vice Mayor Campenni said he would like to see a written procedure in place.

City Attorney Mortell said that a procedure would be complicated.

Commissioner McDonald asked that the City provide Legislative priorities list at the first meeting in January.

Commissioner Krauskopf noted that the deadline for those are before our next meeting, and inquired into what we have prepared.

Jim Chrulski stated that they have prepared one submittal asking for a Grant for the appropriations budget so the City can begin planning and moving forward on the Guy Davis Ball Fields.

City Manager Nicoletti said the City needs to support the League and their Infrastructure Sales Tax rather than push it but support the League for the special appropriations.

Vice Mayor Campenni noted that Representative Harrell is enthused about this and is working very hard, and Karen Sweeney is also working with Jim.

The Commission had no objection to moving forward on the request by staff.

Commissioner Krauskopf said that at the recent League of Cities meeting and in conclusion one of the successes that came out of that was the Lake Okeechobee Learning Collaborative and Initiative. He stated the Lake Okeechobee compact was signed on November 30th, 2016. He said he also attended the Holiday Boat Parade.

Vice Mayor Campenni was pleased that the infrastructure sales tax item, and thanked the hard work and achievement of the staff and thanked Jeff Krauskopf. He also announced that he was recently elected Chair of the Treasure Coast Council of Local Governments and thanked Teresa Lamar-Sarno, Paul Nicoletti, and Cherie White for attending the meeting. He inquired on the status of the impact fee issue with the County.

Attorney Mortell said he spoke with the County and they are moving forward on presenting it to their Board.

Commissioner McDonald also spoke with the County and anticipates some forward movement on the Willoughby Road extension.

Mayor Clarke commented that the League of Cities Meeting was very informative. She recently rode along with a Police officer and encourages citizens to participate in a citizen's ride-along to get to know our officers.

6:19 PM COMMENTS BY CITY MANAGER

Commissioner McDonald noted there was a shooting in Orlando today where two officers died in the line of duty.

The Commissioners called for a moment of silence.

Vice Mayor Campenni noted the recent passing of former Attorney, and Police Officer Terry Nolan.

Mayor Clarke also stated the show of support for Terry Nolan was a moving experience. She also mentioned the upcoming Special meeting with each of the Commissioners on Friday beginning at 1:00 p.m. She also asked to add some program ideas to the 10th Street Center and would like to include them in a future discussion. She also noted that on January 12th at 6:00 p.m. she will be holding a Town Hall meeting at the 10th Street Center. The topics of discussion will be Pride in Property providing citizens information.

She also noted that an email was received by Ms. Sayer regarding density concerns. Her comments will be added to the minutes for the record. She also asked that any item that goes before the LPA should first be heard at a public workshop.

City Manager Nicoletti and Attorney Mortell indicated that the LPA is a public workshop, that the item is heard before the Commission. said the

Pull Item #2, #9 and #10 from the Consent.

He noted that Commissioner Campenni gave him an article regarding State Wildlife Official recommending evening boar anchoring regulations with the State. He said that what he is reading in the proposal is that if there is any regulations it should be counties only, and mothing below the county level should be allowed.

Commissioner Campenni suggested adding it to the legislative priorities discussion item 2.

He also noted that he has been invited to attend the County Commission meeting tomorrow regarding Impact Fees. He suggested that the two impact fee experts come together and discuss the impact fees jointly to harmonize the program that does not penalize Development within the City. He said for the County to recognize of scheme of Transportation, really has to do more with mobility and how people move about the City instead of concentrating on lane miles, which is the counties approach to transportation, and impact fees.

City Attorney Mortell noted that the City is still holding its impact fees until the County redoes their study or changes their methods.

2. RESOLUTION No. 2-2017 A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF STUART, FLORIDA, AUTHORIZING THE ADOPTION OF LEGISLATIVE PRIORITIES FOR THE 2017 LEGISLATIVE SESSION.

Commissioner McDonald asked for the priorities be amended to include funding of the St Lucie Issues Team. He also asked why the Ballfield project was brought before the legislative delegation before the Commission. He asked for consensus of the Commission that any request of the Legislative Delegation be brought before the Commission first. It was agreed that any matter brought before the Legislative Delegation be brought to the Commission first.

The Commission concurred.

Commissioner McDonald also requested that the two United State Senators be added to the list. He also asked that the list be sent to not only the local delegation but to all of the members of the House of Representatives, Florida Senate, Governor and all cabinet members.

Vice Mayor Campenni asked that we speak with Representative Harrell before we do that so we don't do something that will hurt her in Tallahassee.

Vice Mayor also asked if we could add to the list the Anchorage legislation or regulations since we have a mooring field.

City Manager Nicoletti said he doesn't know if the City would have an objection if regulation was permitted at the County level. He said the article indicates that would be acceptable. He said the Boat US also seems to accept this.

Vice Mayor Campenni expressed concern over the preemption.

Commissioner Krauskopf urged caution when it comes to regulating the mooring fields and anchoring of boats because there are many issues to deal with. He recommended allowing the county to regulate them but said they also have to deal with sewer pump out and inoperable vessels.

Commissioner Krauskopf also asked about Page 19 of 159, Fracking. He said we should not fully support an item although this preempts local government. We can't have it both ways. He suggest removing fracking all together.

Commissioner Krauskopf supports a statewide ban on Fracking.

CITY OF STUART, FLORIDA AGENDA ITEM REQUEST CITY COMMISSION

Meeting Date: 1/23/2017

Prepared by: Tom Reetz

Title of Item:

RESOLUTION No. 12-2017; A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF STUART, FLORIDA, GRANTING A CONDITIONAL USE APPROVAL TO RIVERSIDE VILLAGE STUART LLC, OWNER OF THE PROPERTY LOCATED AT 43 & 55 S.E. SEMINOLE STREET, AS DESCRIBED WITHIN THE ATTACHED LEGAL DESCRIPTION; GRANTING APPROVAL FOR MIXED USE DEVELOPMENT OF 4,235 SQUARE FEET OF RETAIL AND 20 RESIDENTIAL UNITS ON A 1.21 ACRE SITE; TO ALLOW A DENSITY OF 16.5 UNITS PER ACRE; FOR PARKING WITHIN THE BUILDING ENVELOPE AND FOR A CONTINUOUS BUILDING FACADE OF MORE THAN 100 FEET IN WIDTH WITHOUT PROVIDING AN ADDITIONAL VISTA; PROVIDING AN EFFECTIVE DATE; PROVIDING FOR A TIMETABLE OF DEVELOPMENT; PROVIDING FOR CONDITIONS OF APPROVAL; AND FOR OTHER PURPOSES.(RC)

Summary Explanation/Background Information on Agenda Request:

The applicant, Hollub Investments, is requesting a Major Urban Code Conditional Use approval as per Section 3.01.06 of the City of Stuart Land Development Code. If granted, the conditional use would allow for the development of a mixed use project consisting of 5 residential units over 4,235 square feet of retail space fronting Seminole Street and 3 stories of 15 luxury condominium units over parking in the rear of the site for a total of 20 residential units on a 1.21 acre site in the City's urban waterfront zoning district.

The applicant has requested the following variances from the City's code: 1. A density increase from 15 to 16.5 dwelling units per acre, 2. To allow parking within the building envelope, and 3. For a continuous building facade of more than 100 feet in width without having to provide an additional vista to the river. In lieu of not providing an additional vista, the developer has increased the side setbacks, thus increasing the view from the street, and decreasing the impact of the building on the views of adjoining property owners.

The level of parking below the condominium units provides a unique opportunity to have sufficient parking, without the parking being visible from the street. The contour of the property dipping sharply to the water allows the parking to be hidden under the building.

The Community Redevelopment Board recommended approval for the project by a majority 4-2 vote at a special meeting on January 11, 2017 with the condition that 4,235 square feet of commercial space along Seminole Street be limited to retail and low intensity medical office uses as defined in the City's Land Development Code. Staff has also added a condition limiting the waterfront building's rooftop occupancy and prohibiting rooftop occupancy for the two buildings fronting Seminole Street. **See Exhibit 'B' Conditions of Approval**

CITY OF STUART, FLORIDA CITY COMMISSION STAFF REPORT

MEETING DATE: January 23, 2017 PREPARED BY: Tom Reetz

Senior Planner

- **PROJECT NAME:** Seminole Avenue Hollub Investments
- **TITLE OF ITEM:** Request to consider a Major Urban Code Conditional Use approval to allow a mixed use development of 4,235 square feet of retail space and 20 residential units. The Applicant has requested a density of 16.5 units per acre where the maximum density is 15 dwelling units per acre is allowed, for a continuous building facade of more than 100 feet in width without providing an additional vista and for parking within the building envelope within the City of Stuart Community Redevelopment Area.

I. APPLICATION SUMMARY

The applicant, Hollub Investments, is requesting a major urban code conditional use approval as per Section 3.01.06 of the City of Stuart Land Development Code. The applicant has recently purchased the property, and if granted, the conditional use would allow for the development of a mixed use project consisting of 5 affordable residential units over retail space fronting Seminole Street and 15 luxury condominiums over parking in the rear of the site on the water in the City's urban waterfront zoning district.

The applicant is required to request a Major Urban Code Conditional use due to the per parcel density of 16.5 units per acre, to allow for the 20 total units to occupy a 1.2 acre site. Also, the applicant is requesting two variances to the urban code: a relief from a prohibition to parking within the building envelope and allowing a continuous building façade of more than 100 feet in width without providing an additional vista to the river.

In lieu of not providing an additional vista, the developer has increased the side setbacks, thus increasing the view from the street, and decreasing the impact of the structure on the views of adjoining property owners.

The acceptance of parking under the building footprint is due to the street level providing the unique opportunity to have sufficient parking, without the parking being visible from the street. The unusual contour of the property dipping sharply to the water allows the parking to be hidden under the buildings.

The applicant is permitted to construct property at a maximum height of three stories or 35 feet in height. If 50% or more of the building is residential or hotel, a fourth story is permitted. The maximum building height of a four story building is 45 feet. The proposal includes 3 a story building over a level of parking for a total height of 35 feet from the finished floor to eave of the of the third floor roof. There is also and roof access that projects above the third floor and within the overall hieght allowance. The total height of the Condominium building including roof access is 49'-3"

II. HISTORY

The property is currently undeveloped after the existing buildings were demolished several years ago in the interest of redevelopment.

VI. <u>PUBLIC NOTIFICATION</u>:

The legal notification requirements have been met for this request of a **Major Urban Code Conditional Use** approval. In accordance with the requirements set forth in Section 11 of the City of Stuart's Land Development Code. Documentation of the public notice is part of the record as well as on file within the City Development Department.

VII. STANDARDS FOR URBAN CODE CONDITIONAL USE REVIEW: LAND DEVELOPMENT CODE – SECTION 3.01.06

1. The proposed use is not contrary to the established land uses in the immediate area.

The Future Land Use of all of the properties within proximity to the site is Downtown and the property is situated within the City of Stuart Community Redevelopment Area (CRA). The list of permitted uses included in the Urban Code are applicble to all property situatued within the CRA, and include commercial and residential uses. The proposed mix use of retail and multifamily units will comply with the list of uses list in the Urban Code and is therefore consistent with the established land uses.

2. The proposed use would not significanly depart from the densities or intensities of use in the surrounding area and thereby increase or overtax the load on public facilities such as schools, utilities, and streets and other public infrastructure.

Approval of the urban code conditional use would allow for the increase of densities or intensities of use of 16.5 units per acre (16.5 units/acre) which is currently not consistent with the surrounding area, but due to the small nature of the site (1.2 acres), would not increase or overtax the load on public utilities and facilities. The applicant is requesting an increase of 1.5 units, which represents a density that is allowed by an urban code conditional use in Chapter 2 (Densities and Intensities) of the Land Develoment Code.

3. The proposed use will not be contrary to the proposed land use plan and will not have an adverse effect on the goals, policies and objectives of the comprehensive plan.

Approval of the urban code conditional use would not be contrary to the adopted land use plan or other relevant goals, objectives, and policies concerning retail use. The Downtown Future Land Use references individual projects and sites consisting of single uses. A mixed use building is consistent with this language and would not detract from the mixture of commercial uses that exist downtown, but would increase the commercial opportunities for such uses.

4. The existing district boundaries are illogically drawn in relation to existing conditions on the property proposed for change.

There are no proposed changes to the existing district boundary.

5. The proposed use will not create or excessively increase traffic congestion or otherwise affect public safety.

The proposed mixed use development will rely on on existing infrastructure to

accommodate the vehicular traffic flow utilizing the site ...

6. The proposed use will not create drainage or a storm water quality problem.

The development of the entire site will be performed in accordance with approved building permits, which will ensure that the required drainage and stormwater quality is obtained.

7. The proposed use will not significantly reduce light or air to adjacent areas.

The proposed 3 story luxury condominium building over a level of parking will not reduce light of air to adjacent areas because of the increased side setbacks that will provide wider vistas to the river than required by code.

8. The proposed use is less burdensome on neighboring properties and on public infrastructure than uses permitted by right in the district.

The uses are permitted throughout the CRA district.

9. The proposed use is not out of scale with the uses permitted by right in the district and with the existing uses in the neighborhood.

The proposed mixed use building is in scale with the uses permitted by right in the Community Redevelopment Area district. The proposal is a development project to vacant site and its appearance, as demonstrated by the illustrative elevations, are consistent with the intent and quality of construction the City desires of the Community Redevelopment Area.

10. There are no other adequate sites for the proposed use in districts in which the proposed use is permitted by right within the city.

A major urban code conditinal use would be required for the proposed uses in all of the Community Redevelopment Area and is a permitted use within Section 3 of the Urban Code.

IX. <u>CONDITIONAL USE REVIEW FACTORS TO BE CONSIDERED BY THE</u> <u>DECISION MAKER: SEC. 11.01.10(G)(6)</u>

In applying the above standards, the decision-maker will consider each of the following factors:

1. Ingress and egress to the property and the proposed structures to be located thereon, if any, including considerations of automotive and pedestrian safety and convenience, of traffic flow and control, and of access in case of fire or catastrophe.

The proposal has been reviewed by the Fire and Public Works Departments who

have no objections to the proposed use.

2. Off-street parking and loading areas including consideration of the economic impact thereof on adjacent properties and of any noise and glare cerated by the location of offstreet parking and loading areas on adjacent and nearby properties.

The proposal does not have off-street parking. The parking is on site.

3. Refuse and service areas including consideration of the economic impact thereof on adjacent properties and of any noise and odor created by the location of refuse and service areas on adjacent and nearby properties.

The applicant will use the refuse and service areas associated with the proposed site plan and acceptable to the City's Public Works Department.

4. Utilities including condideration of hook-up locations and availability and compatbility of utilities for the proposed uses.

Public Works has reviewed the proposal and have no objections in regard proposed connections to utilities.

5. Screening and buffering including consideration of the type, dimensions, and character thereof to preserve and improve compatibility and harmony amoung the proposed uses and structures specially permitted and the uses and structures of adjacent and nearby properties.

The applicant proposes adequeate landscaping within the site as per the lanscaping shown on the site plan. The applicant will maintain an unobstructed view from public right-of-way to the St. Lucie River on both ends of the site.

- 6. Signage and exterior lighting including consideration of glare, traffic safety, and economic effects thereof on adjacent and nearby properties.
- 1. All signage shall be in accordance with the City's Land Development Regulations with regards to size, dimensions, color, etc. The exterior lighting will be minimal considering its a single family residence and will not have a negative effects on adjacent and nearby properties.
- 7. Required yards and open spaces.

The proposal includes wider than required corridors (vistas) a courtyard on Seminole Street and common pool/paver deck space at the rear of the site.

8. Height of proposed structures including consideration of the effects thereof on adjacent and nearby properties.

The applicant is permitted to construct property at a maximum height of three stories or 35 feet in height. If 50% or more of the building is residential or hotel, a fourth story is permitted. The maximum building height of a four story building is

45 feet. The proposal includes 3 a story building over a level of parking for a total height of 35 feet from the finished floor to eave of the of the third floor roof. There is also and roof access that projects above the third floor and within the overall hieght allowance. The total height of the Condominium building including roof access is 49'-3"

VIII. STAFF RECOMMENDATION

The Community Redevelopment Board approved the project by a majority 4-2 vote at its special meeting on January 11, 2016 with the condition that the commercial use be limited to retail and light medical office use.

Staff recommends **APPROVAL** of the applicant's request to consider a **MAJOR URBAN CODE CONDITIONAL USE** to allow the redevelopment of mixed use buildings and luxury condominiums in accordance with the conditions attached the Resolution 12-2017.

OTHER MATTERS BEFORE THE BOARD

 Resolution No. 12-2017: A resolution of the City Commission of the City of Stuart, Florida, granting a Conditional Use Approval to Riverside Village Stuart LLC, owner of the property located at 43 & 55 S.E. Seminole Street, as described within the attached legal description; granting approval for mixed use development of 4,235 square feet of retail and 20 residential units on a 1.21 acre site; to allow a density of 16.5 units per acre; for parking within the building envelope and for a continuous building facade of more than 100 feet in width without providing an additional vista; providing an effective date; providing for a timetable of development; providing for conditions of approval; and for other purposes.

PRESENTATION: Tom Reetz, Senior Planner 24:10 PM Terry McCarthy, Attorney for Riverside Village Stuart, LLC Dan Braden, Braden & Braden Architects

COMMENTS FROM THE PUBLIC (5 min. max):

John Maiucci who owns the property at the corner of Denver and Osceola said he supports the project and conceptually it's beautiful for the neighborhood.

Steven Voller who lives in Marathon, FL said they have his presentation in writing.

Armond Pasquale, a 38 year resident of Seminole Street thought this building destroys the neighborhood and thought there might be a bar added and said that bars are a constant problem, there is no parking on Seminole, they would prefer a building that didn't look like Miami Beach, there wasn't enough green, it's too dense and with a rooftop plus parking garage it is a 5 story building. He said his building is 33 feet to the roof and they will be able to see their patio and thought the building needed to be redesigned.

Bruce Laraway who lives next to the building said he doesn't like it at all. He said there is no parking on Seminole Street and this will make it worse and thought the whole thing is crazy. He said the stairwell comes down onto his beach. He said he didn't receive anything in the mail, he didn't think they should have more than 15 units; it was too close and didn't want it in his yard. He said he particularly didn't like the 5th floor looking down onto his living room.

Brandon Bulicky who lives on Seminole said it has been a tough season with traffic and thanked the Police Department but said he liked the project and thought it could all be worked out. He thought it could be more scaled down.

Mike Gorman who has a house on Seminole Street has no particular objections but said there is no parking on this street and asked the board to pay strict attention to the parking requirements and didn't think retail should be allowed on that street.

COMMENTS FROM THE BOARD MEMBERS

Chris Lewis asked if there was sufficient parking.

Dan Braden said they had more than was required.

Frank Wacha asked if Garage 15 was a freestanding garage.

Dan Braden said it was attached.

John Gonzalez asked if each unit had a garage door.

Dan Braden said some did, but not all.

John Gonzalez asked if the dumpster issue had been addressed.

Dan Braden said it had.

Becky Bruner asked when the last development like this was built and asked who was responsible for the dilapidated dock.

Terry McCarthy said a new dock would replace the dilapidated one.

Chris Lewis asked if there would be boat slips.

Terry McCarthy said there would be slips.

Pete Walson said it was a beautiful project but said he was not fond of all the colors. He thought Seminole was a much more muted neighborhood.

Frank Wacha asked if there were any restrictions on the commercial use.

Terry McCarthy said he agreed that there should be.

Terry O'Neil said they could look at it before it goes to the commission.

Frank Wacha asked if they could control the scale on the edges.

Dan Braden said if you start getting smaller, it doesn't work on the garages.

Drew Pittman agreed with Pete Walson on the colors and thought it seemed chopped up but he liked the concept.

Pete Walson asked staff to take a look at the retail and thought the building was in scale with the neighborhood.

Scott Montgomery, C. Calvert Montgomery said they would modify the parking spaces. He said they are 25% over by code but they could look at that. He didn't think they should rule out retail altogether but they will look at modifying the calculation.

John Gonzalez asked that the dumpster location be worked on so it is as unobtrusive as possible.

Frank Wacha thought it was great that new projects were coming through and liked the colors and oscillation, but thought they should limit some of the uses.

Chris Lewis said he was on the fence. He liked the idea of condos but parking is tight in that area. He said building it would affect all the residents and loved the intention of it.

Becky Bruner said times are changing and so is our city and she is proud of the city and how they grow and is all for this project.

Drew Pittman said his grandfather was on the board when they came up with the four story rule and he loves the four story limit and didn't think because of these small projects it would never become Miami and did not think there would be retail there and would probably be offices.

Meeting Date: 1/23/2017

Prepared by: David D. Peters, Assistant Public Works Director

Title of Item:

RESOLUTION No. 16-2017. A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF STUART, FLORIDA, AUTHORIZING THE EXECUTION OF NON-EXCLUSIVE WATER AND SEWER MAINS AND LIFT STATION EASEMENTS UE-1, UE-2, AND UE-5 AT THE ROYAL PALM FINANCIAL CENTER WITH ROYAL PALM 1, INC., PROVIDING AN EFFECTIVE DATE, AND FOR OTHER PURPOSES.(RC) Summary Explanation/Background Information on Agenda Request:

These non-exclusive water and sewer main and sewage lift station easements will allow the city to provide commercial fire flows and low pressure sewer service to the Channel Avenue Redevelopment Area.

In addition, the City will assume ownership of the private lift station at the Royal Palm Financial Center, eliminating the construction of a new lift station. This will reduce the overall cost of providing a low pressure sewer system to the Channel Avenue Redevelopment Area by approximately \$50,000.00.

NON-EXCLUSIVE SEWAGE LIFT STATION AND FORCE MAIN EASEMENT

THIS NON-EXCLUSIVE SEWAGE LIFT STATION AND FORCE MAIN EASEMENT executed and delivered this _____ day of ______, 2016, by and between ROYAL PALM 1, **Th**C, a for profit corporation, its successors and assigns, whose post office address is 5094 SE Federal Highway, Stuart, Florida 34994 (hereinafter the "Grantor"), and the CITY OF STUART, FLORIDA, a municipal corporation of the State of Florida (hereinafter the "Grantee").

WITNESSETH

WHEREAS, Grantor wishes to grant a non-exclusive sewage lift station and force main easement (the "Easement") to Grantee on that certain land described on Exhibit "A" attached hereto and made a part hereof (the "Easement Premises"), which Easement is for the purposes of providing Grantee with access to and use of the Easement Premises for construction, maintenance and operation of a sewage lift station and force main and appurtenances located within the Easement Premises, subject to certain terms and conditions set forth herein.

NOW, THEREFORE, in consideration of TEN AND NO/100 DOLLARS (\$10.00) and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Grantor hereby grants to Grantee a non-exclusive, perpetual easement (the "Easement") over, upon, across and under the Easement Premises, subject to the following:

1. <u>Purposes and Permitted Uses.</u> The Easement shall exist for the sole purpose of providing Grantee, its agents and employee's access to and use of the Easement Premises for operation and maintenance of a sewage lift station and force main and appurtenances by the City of Stuart and for ownership and perpetual maintenance within the Easement Premises.

2. <u>Grantor's Rights.</u> The Grantor shall retain all rights over and upon the Easement Premises for use which does not conflict with Grantor's use. If Grantee's normal operation, maintenance and repairs of the sewage lift station and force main result in disturbance of the improvements will be repaired or replaced at the Grantor's expense. In no event shall the Grantor construct any structures or plant any trees in or on the Easement Premises. Notwithstanding anything in this Easement instrument to the contrary, Grantor may use the Easement Premises for other utility purposes, provided however, that the written consent of the Grantee is obtained prior to any such use of Grantor.

And the Grantor hereby covenants with the Grantee that Grantor is lawfully seized of the Easement Premises in fee simple: that Grantor has good and lawful authority to grant and convey this Easement; the Grantor fully warrants the title to the Easement Premises and will defend the same against the lawful claims of all persons whomsoever. IN WITNESS WHEREOF, the Grantor has signed and sealed these presents the day and year first above written.
