I am an artist based in Stuart, FL specializing in painting and drawing. For the past two years I have been studying at the Catholic University of America in Washington, DC and am pursuing majors of Studio Art (with a focus on oil painting) and English. I have previously studied at the local Alizarin Crimson Art Studio. While enrolled at Jensen Beach High School, I participated in the Marvin S. Cone Juried Art Shows of 2017 and 2018 at the Martin County Court House Cultural Center & Gallery and was awarded with the "Purchase Award." I was also named by the Art Associates of Martin County as the "Art Student of the Month" for January, 2018. In addition to my experience with traditional oil painting, I have also worked as a muralist in 2017 when I completed a large public mural on the fence surrounding the local Ground Floor Farm as a part of the their ambitious initiative to transform the perimeter of their property into an outdoor gallery featuring a collection of individual murals created by fifteen local artists (myself included). The proposed mural will span a large wall measuring 16 x 56 feet in the heart of Downtown Stuart. It will feature a colorful sunrise beach scene at the historic Gilbert's Bar House of Refuge (the oldest structure in Martin County) in order to beautify the downtown area as well as pay homage to Stuart's rich history and natural charm.
