Kali:

Congratulations on all the fundraising you've been doing for Kiwanis park. I've very impressed with your success!

As I'm sure you have heard, the legislature didn't fund the FRDAP capital project fund for the park this year. Therefore, I'm assembling various funds to make up for the anticipated grant in the City of Stuart's FY21 budget.

Fortunately, I put the CSAB money away for a rainy day. This appears to be that day! However, before I formally recommend usage of these funds, I'm requesting your blessing. Out of respect to you and your father's efforts, I didn't want to assume without you approving it - in writing. A simple response to this email would be fine. (R21-2018 attached).

Also, I wanted to take this opportunity for you and your father to attend the covered basketball ribbon cutting ceremony! In some strange way the timing is a perfect way to let you know, we're making progress at the 10th Street Community Center – the project that brought us all together. I've attached the flier. Hope to see you there! 'Full Circle' experience!

Thank you for your consideration on the usage of the funds.

Hi Jim,

I'm sorry to have missed the meeting last night but know it was a wonderful moment for our relationship with the city.

To say I'm overwhelmed and surprised is an understatement. I was under the impression that money was spent on 10th street so this news will certainly complete a full circle! Thank you for thinking of us and respecting the work we ALL did. I am thrilled to use it for another important project for the city!!

I did get a chance to drive over and admire the new covered courts and am impressed with the outcome. Unfortunately, I will be out of town for the ribbon cutting. Congrats on again making huge strides in east Stuart.

All my best!
Kali

Jim,

Wonderful news about the funds and their rainy day use. We are happy that the park in town and on 10th continues to thrive. We have and will continue to enjoy the extra special relationship with the city.
Although we are heading north on Friday and won't be able to be at the basketball court ribbon cutting, we applaud your judgement in adding to the quality of the experience with the roof.
You have a becoming style and we appreciate being included.
