Re: June Employee of the Month – Bob Cummings

Dear Mr. Dyess:

Bob Cummings was hired at the City of Stuart Fire Rescue Department in 2014 as a Logistics and Support Technician. Prior to the City of Stuart, he was a Master Mechanic for the Ford Motor Co. for over 30 years. Bob is also a certified Master Emergency Vehicle Technician, which is a very specialized program for the repairs of numerous systems on fire trucks and ambulances.

Bob's role is extremely vital to the day-to-day operations of our Fire Rescue Department. Bob does everything from the electrical wiring of emergency lights/sirens to repairing valves and pumps on fire trucks, installing stretchers in our ambulances, ensuring the fire stations have supplies and countless other items in between. Bob offers to stay late to complete repairs, come in early whenever needed and work after hours and weekends just to ensure our emergency vehicles/equipment are available to serve our community, all while displaying enthusiasm for the work he performs.

Bob is an extremely valuable asset and resource for the City of Stuart Fire Rescue. The daily operations of our Fire Rescue department highly depend on his skills, and we do not know what we would do without him.

It is with great pride to recommend your consideration of Bob Cummings as June's Employee of the Month, as he is more than deserving of this recognition.

Respectfully,

Vince Felicione
